About a year ago Don Ludovico spent several months at the Ritz-Carlton. At that time Benjamin Duke emphatically denied that his daughter was engaged to the nobleman, who claimed relationship with the King of Spain. The rumor that he was to marry Miss Duke bobbed up again after the "prince" had returned to France. Early last July he shot himself. The bullet flattened against a rib and he soon got well.

The alleged order from the Minister of the Interior that Don Ludovico be expelled from France followed a raid on a gambling establishment which he is said to have conducted in spacious apartments in the Avenue MacMahon. It reached him September 24, "owing to delay in transmission," and he sailed four days later from Havre on La France.
